

## EL PASO IS HOST TO ARIZONA; AUTO BANQUET FOR 38 VISITORS

Borderland Route is Boosted as Tie That Binds El Paso to Arizona; Arizona is Spending \$400,000 on Good Roads; Tombstone Coming Back Strong; Southern Arizona Men Are Pleased With Visit.

NINETY guests sat down at the banquet given Friday evening in the banquet room of the Paso del Norte in honor of the Arizona delegation of business men who motored into the city at noon Friday, after a steady and successful run along the Borderland highway. Of the party, 28 were from Arizona and New Mexico, while 62 El Paso business men did the honors. The banquet was held under the auspices of the chamber of commerce and R. B. Orndorff, president, presided.

Good roads was the general subject of discussion and the relationship that El Paso stood to the states west and north of her in a business way. John M. Wyatt, of the First National bank of El Paso, stated that the prosperity of El Paso depended upon the prosperity of Arizona and that the ties and the cattle of the two states in turn became the wealth of this city. "We depend, and say so frankly, upon the invisible riches that lie to the west."

Welcomed to City. The address of welcome was made by the city attorney J. H. McBroome, who spoke in the absence of Mayor Tom Lea. Judge Dan M. Jackson, of the 31st district court, paid the tribute to the visitors that all roads from El Paso lead to the great and glorious state of Arizona. "I had the honor of being in California when your distinguished citizen, Dwight H. Heard, was named as president of the National Livestock association, and we expect to have him as our guest in this city within the next week or so."

Z. L. Cobb spoke of the dependable personalities of the men of the west and said that he was proud of Arizona and New Mexico. And, in referring to his cousin, Lamar Cobb, state builder of roads for Arizona, said: "I would

rather be a live road builder in Arizona than a member of congress and buried in the hush of a tomb. We welcome you to El Paso for many reasons—but the chief one is that you have made El Paso."

J. H. Gray Talks. Joseph H. Gray, secretary of the Western District chamber of commerce, Albert Stacy, of Douglas, A. H. Gardner, of Tombstone, Ariz., Lamar Cobb, of Phoenix, Ariz., Jos. S. French, of New Mexico, A. S. J. Shropshire, of Douglas, E. Campbell, Bisbee, and John L. Brown, president of the Warren District Commercial club, all made responses to the El Paso toasts.

Mr. Gray paid a warm compliment to the efficiency of Malcolm Fraser, the secretary of the El Paso chamber of commerce, stating that when El Paso secured the services of Mr. Fraser she secured one of the best men in Arizona. "For years and years he was secretary of the Good Roads association when there was no money in the treasury and the services were in a large measure volunteer."

"We want to again renew our invitation to you," said Mr. Gray, "to motor to El Paso and see the highway that is being built to you. And when you come we want you to see the magnificent boulevard that ranges 1000 feet above the city and winds about the mountains for a distance of 13 miles leading from Bisbee to the historic mining camp of Tombstone."

Mr. Gray further said that one of the chief reasons for the visit was to discover the conditions of the road along the Borderland highway and to gather ideas as to how any bad places might be corrected.

\$400,000 in Roads. Lamar Cobb, state engineer for Arizona, stated that that state was expending \$400,000 a year for good roads and that much of this money was being placed in the construction of roads that were contributory to the Borderland highway. "The southern part of Arizona pays three-fourths of the taxes for this purpose. During the past three years we have spent \$1,000,000 in the bettering of our highways."

Mr. Stacy, of Douglas, made a happy talk on the close relations of El Paso to her sister cities of Arizona and said the Borderland route bound Arizona to El Paso. "This Borderland route is the tie that binds El Paso to all of our cities especially my own city of Douglas, and I hope you will lend your assistance in having the route improved, the change was proposed made the best of all, that you will hop into your Ford and come over for a neighborly visit," he said.

Tombstone Coming Back. A. H. Gardner, secretary and manager of the Hinchey Water company of Tombstone, spoke enthusiastically of the Borderland route and its possibilities. He said Tombstone, once a dead camp, had come to life through the operations of the Phelps-Dodge company and that Tombstone was one of the finest places in the west to live in and would soon be one of the liveliest camps in the state. "When we say Tombstone, you smile, and when we say 'come back' you laugh out loud. Well, mark what I am telling you, Tombstone will be a great producer

of the future."

What to Do for Itching Skins. Eczema, ringworm and other itching, burning skin eruptions are so easily made worse by improper treatment, that one has to be very careful. There is one method, however, that you need not hesitate to use, even on a baby's tender skin—that is, the Resinol treatment. Resinol is the pre-scription of a Baltimore doctor, but in the form of a resinol ointment and Resinol soap. This proved so remarkably successful, that thousands of other physicians have prescribed it constantly for over twenty years. Resinol usually stops itching instantly, healing the eruption quickly, unless it is due to some serious internal disorder. Resinol Ointment and Resinol Soap are not at any drugstore, and are not at any drugstore, and are not at any drugstore. Write for free sample, Dept. 6-S, Resinol, Baltimore, Md.—Advertisement.

"At Pratt, Kns., he was traced and is said to have bought a suit of clothes," said sheriff Kendall. "He is also alleged to have sent a package of money, supposed to have amounted to about \$5000. He admitted that he sent this money to Kansas City. He remained in Kansas City ten days, he said to the sheriff and also said he bought an automobile there. He went to Kansas City to Muskogee, Okla., and left the auto there," sheriff Kendall said. "I got a line on him there and followed him to Beaumont and was caught there by a letter addressed to W. D. Freeman, a name he was using."

Houchin will be taken to Hillsboro this evening and will be held there in jail until his trial is held.

again and when it is, El Paso will get the bulk of our trade."

M., stated that he had joined Mr. French, the purpose of making a study of the roads connecting Arizona and New Mexico and that, while several months ago it required three days to make the trip down by automobile, that in the course of several months to come he hoped that the trip could be made in one day. Cochise County Official Inspects El Paso Streets and Paving; Likes It.

Douglas will look to El Paso for her paving suggestions. J. M. Sparks, chairman of the board of supervisors of Cochise county, who accompanied the motorcade from Arizona Friday, remained in El Paso Saturday to inspect the city's paving with a view of recommending the paving to be put down in Douglas.

Mr. Sparks is a building contractor and an expert on road construction here, he called on Mayor Tom Lea, city engineer J. N. Gladding and other city officials and was shown over the city's streets by alderman John W. Fisher. Mr. Sparks recently completed a \$200,000 contract at Fort Huachuca for the government when that post was enlarged.

An Opportunity to be Considered. After the month of December, has passed most people think it out of place to buy winter clothing. Though erroneous this might be because we have more real winter after January 1st than before this date, business houses are obliged to make some sacrifices on their stocks, so to be able to dispose of them and make room for their spring line.

An excellent opportunity is offered to every man who likes to wear good clothes at Flinchbaugh Brothers, 2nd floor City National Bank Building, where he can get the best imported and domestic wools made up in the style of suit that appeals to him at a discount of 10 per cent from the regular price. The tailoring of these suits is the best that can be had. Hand made in their own shop by expert workmen. Their guarantee is to have you satisfied.—Adv.
